

## Secretariat update

This note captures only a few points of interest not otherwise covered on the agenda. The Secretariat has been extremely busy on Conference business over the last 2 months on many matters as should be apparent from various communications with the ExCo and on topics on the agenda.

### 1. Website

The Secretariat has embedded messages into the website carousel to highlight topical issues and give the site a more dynamic feel. An example follows:

### 2. Call for proposals for enforcement cooperation meetings

The Secretariat has invited proposals to hold ICDDPC-recognised enforcement cooperation meetings in 2017. [Guidance](#) for submitting a proposal and [suggestions](#) for organising successful meetings were posted to the website.

### 3. Executive Committee email facility

The Secretariat plans shortly to change its email address from [ICDPPCExCo@privacy.org.nz](mailto:ICDPPCExCo@privacy.org.nz) to [ICDPPCExCo@icdppc.org](mailto:ICDPPCExCo@icdppc.org). The new email address will smooth the transition to future secretariats. The new email address can be easily moved around different jurisdictions without changing its name. The new email system will be created using Microsoft Office 365.
